The American Numismatic Society,
New-York,

Dear Sir,

I beg you to inform me, if you are able to send me the following back numbers of the American Journal of Numismatics, containing Dissertations on Chinese Coins by H. A. Ramsden:

Oct. 1910 (Tsh-moh knife coins)

? Apr } 1911 (Early Chinese metallic currency)

? Sept } (Carapace money of China)

also, if there are yet other numbers, which contain treatises on Chinese Currency by Ramsden, - and what is the price.

Moreover I beg you, to give me notice, if there is a catalogue or any other paper of the famous

Re-collection of ancient Chinese coins.

Since I am an advanced collector and serious searcher of Chinese coins I take a very great interest in all papers on Sino-numismatics.

As soon as I have received your account I shall send you the amount and beg you to send me the papers as soon as possible.

I am, dear Sir,

Yours faithfully

Richard Schlosser.

Dear Sir:-

your letter of April 12th 1924
addressed to this Society has been
received with pleasure, and we are
sending you, gratis, with our com-
pliments, the two numbers of our
Journal, (*209 and *211), which con-
tain the two articles by Henry Ransden
which you wished.

There is no catalogue of the Ro (羅) collection;

only a book of rubbings with
a short manuscript introduction by
Ransden.

I presume you know that the
Ro collection is in this museum and
greatly appreciated by us.

I am pleased to tell you that I am
the owner of Henry Ransden's collection
and his numismatic library, and I
am an enthusiastic student and
collector of Far Eastern numismatics.

I have all my coins and books in
this museum, and they are available

(2)

To all students. This Society also owns many other Chinese and Japanese coins. I also have here the well known collection of Japanese coins of Dr. Munro, whose book, "The Coins of Japan," you probably have read.

So you see we are deeply interested in these things, and are glad to hear from you. We will be glad to hear further from you, and to furnish you with any information we may have. No doubt you know many things that we do not, so we wish to assure you that we will be delighted to receive any information from you. May I ask if you are particularly interested in any series of Chinese coins? We would like to have rubbings and photographs of any unpublished coins that you may have.

I am enclosing four rubbings of the Tsu Moh knife coins in my collection.

③ They were all in Romedens collection.
Number 5R is the one illustrated by
Figs. 2 and 3 in Romedens article in
our Journal.

I wish to thank you for this
opportunity, and to again remind
you that we hope to hear from
you at your earliest convenience.
Most cordially yours,

John Reilly, Jr.
